

STARMICA Co., Ltd

Global Talent Acquisition Seminar

A leading company in real estate industry in Japan

We are the leading and innovative real estate company. We deliver “Smart Value and Comfortable Living” through innovative "Star mica Value Chain" - acquisition, renovation and sales of pre-owned condominiums to consumers.

Established in 2001 by Masashi MIZUNAGA, a global MBA holder and former Goldman Sachs/Boston Consulting Group professional, our business has strived rapidly and penetrated well into the society. Our success is widely acknowledged across nations - we won "Michael Porter Prize" in 2011 and now we have variety of overseas equity / real estate investors.

Our environment / society - friendly business (utilising and revitalising existing condominiums instead of demolishing and building them) has also captured attention as a new style of implementing CSV (Creating Shared Value) and ESG (Environment, Social and Governance) practice.

Recently, we have launched "fusion of businesses" (real estate and technology, cryptocurrency / block chain and vacation rental) to create another innovation to the society.

Date : 28 Sep 2018 (Fri) 7:45pm onwards

Venue : TBD (MRT Bras Basah)

Contents : CEO talk – Our Business

The seminar will be in Japanese / No dinner provided
