2013 NCTU Taiwan Elite Internship Program

Complete your research at NCTU, Taiwan's Top Research University

National Chiao Tung University (NCTU)

National Chiao Tung University, a top research university in Taiwan located adjacent to the Hsinchu Science Park (the Silicon Valley of Asia), emphasizes the integration of science and humanities by offering innovative trainings and interdisciplinary studies in a full spectrum of disciplines. NCTU's Engineering ranks 50th world-wide, while Computer Science ranks 47th world-wide (based on Shanghai Jiaotong University's Academic Ranking of the World Universities in 2012). Our elite study body, currently standing at more than 14,000 in nine colleges, came from more than 60 countries. National Chiao Tung University has been the cradle for the nation's high-tech industry leaders as well as for innovation and research. Currently more than 65% of the chairpersons, CEOs and general managers at Hsinchu Science Park companies are NCTU's alumni.

Program Arrangement

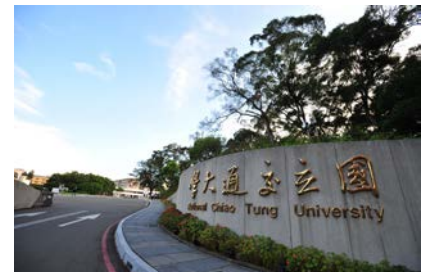

This program is proposed for Master or PhD students from renowned foreign universities to participate in short-term research at NCTU (Partner school students would be considered first). Faculty members with various specialties (in the areas of engineering, social science, computer science, biological science, electrical and computer engineering or management, etc.) from different colleges of NCTU will participate in the program and invite prospective students to do research with professors. Students will be conducting research on either a small independent project or assisting an ongoing project in the host laboratories. At the end of the research, students will be asked to submit a report regarding their research work at NCTU. Qualified students would be offered 1) free round-trip economy class flight ticket from their home country to Taiwan and *2) additional NTD 5,000 scholarship (including 18% tax) during the research period in NCTU.

Program Length
